INDEX OF AUTHORS

VOLUME XXXII

TRANSACTIONS OF AMERICAN SOCIETY FOR METALS

1944

A

Antia, Dara P.....290, 363

B

Benz, W. G..... 381
Bridgman, P. W..... 553

C

Chiswik, H. H..... 483
Cohen, Morris 290, 333, 363
Cruciger, J. R..... 195

D

Day, M. J..... 381

E

Ellis, Owen W..... 270

F

Fletcher, Stewart G.....290, 333
Floe, Carl F..... 134
Fong, T. C..... 162

G

Gensamer, M. 88
Goller, George N..... 239
Gow, James T..... 408
Greninger, A. B..... 483

H

Harder, Oscar E..... 408
Harker, David 210
Hollomon, J. H.....111, 123

L

Lacy, C. E..... 88

M

Mathewson, C. H..... 38
Miller, R. F..... 381

R

Ragatz, R. A..... 162
Rowland, E. S..... 521

S

Simmons, Orien W..... 255

U

Ubben, J. E..... 521

V

Vilella, J. R..... 195

W

Welchner, J. 521

Z

Zener, C. 111

INDEX OF SUBJECTS AND AUTHORS OF PAPERS

VOLUME XXXII

TRANSACTIONS OF AMERICAN SOCIETY FOR METALS

1944

A

Action of Carbonate Catalysts in the Carburization of Steel—*By T. C. Fong and R. A. Ragatz* 162
Alloyed Ferrites; Tensile Properties of—*By C. E. Lacy and M. Gensamer* 88
Alloy; Emergency Heat Resistant—*By Oscar E. Harder and James T. Gow* 408
Alloy Steels; Effect of Time, Temperature and Prior Structure on the Hardenability of Several—*By J. Welchner, E. S. Rowland and J. E. Ubben* 521
Ammonia Dissociation on Case Depth and Structure; Effect of: Study of the Nitriding Process—*By Carl F. Floe* 134
Annual Address of the President 12
Annual Dinner 30
Annual Meeting of A.S.M. 27
Annual Report of Secretary 20
Annual Report of Treasurer 18
Ar″ Temperatures of the Austenite to Martensite Transformation in Steels; Influence of Nickel, Molybdenum, Cobalt and Silicon on the Kinetics and—*By H. H. Chiswik and A. B. Greninger* 483
Austenite to Martensite Transformation in Steels; Influence of Nickel, Molybdenum, Cobalt and Silicon on the Kinetics and Ar″ Temperatures of the—*By H. H. Chiswik and A. B. Greninger* 483

C

Campbell Memorial Lecture—18th: Structural Premises of Strain Hardening and Recrystallization—*By C. H. Mathewson* 38
Carbonate Catalysts in the Carburization of Steel; Action of—*By T. C. Fong and R. A. Ragatz* 162
Carbon Content and Heat Treatment on the Work Hardening Characteristics of Several Steels; Effect of—*By John H. Hollomon* 123
Carbon Effect on the Tempering of Steel—*By Stewart G. Fletcher and Morris Cohen* 333
Carbon Steel (High); Structural Changes During the Tempering of—*By Dara P. Antia, Stewart G. Fletcher and Morris Cohen* 290
Carburization of Steel; Action of Carbonate Catalysts in the—*By T. C. Fong and R. A. Ragatz* 162
Case-Carburized S.A.E. 4815; Isothermal Transformation of—*By J. R. Cruciger and J. R. Vilella* 195
Cast Iron (White); Quenching Rate Versus Graphite Formation in Prequenched—*By Orien W. Simmons* 255
Cobalt, Nickel, Molybdenum and Silicon Influence on the Kinetics and Ar″ Temperatures of the Austenite to Martensite Transformation in Steels —*By H. H. Chiswik and A. B. Greninger* 483
Creep Strength, Stability of Microstructure and Oxidation Resistance of Cr-Mo and 18 Cr-8 Ni Steels—*By R. F. Miller, W. G. Benz and M. J. Day* 381

Cr-Mo and 18 Cr-8 Ni Steels; Creep Strength, Stability of Microstructure and Oxidation Resistance of—*By R. F. Miller, W. G. Benz and M. J. Day* 381
Cr-Ni (18-8) and Cr-Mo Steels; Creep Strength, Stability of Microstructure and Oxidation Resistance of—*By R. F. Miller, W. G. Benz and M. J. Day*..... 381

E

Effect of Ammonia Dissociation on Case Depth and Structure—Study of the Nitriding Process—*By Carl F. Floe*..... 134
Effect of Carbon on the Tempering of Steel—*By Stewart G. Fletcher and Morris Cohen* 333
Effect of Heat Treatment and Carbon Content on the Work Hardening Characteristics of Several Steels—*By John H. Hollomon*..... 123
Effect of Time, Temperature and Prior Structure on the Hardenability of Several Alloy Steels—*By J. Welchner, E. S. Rowland and J. E. Ubben* 521
Election of Officers 27
Emergency Heat Resistant Alloy—*By Oscar E. Harder and James T. Gow* 408
Emissivity of Molten Stainless Steels—*By George N. Goller*..... 239

G

Graphite Formation Versus Quenching Rate in Prequenched White Cast Iron—*By Orien W. Simmons*..... 255

H

Hardenability of Several Alloy Steels; Effect of Time, Temperature and Prior Structure on the—*By J. Welchner, E. S. Rowland and J. E. Ubben* 521
Hardening (Order): Its Mechanism and Recognition—*By David Harker* 210
Hardening (Work) Characteristics of Several Steels; Effect of Heat Treatment and Carbon Content on the—*By John H. Hollomon*..... 123
Heat Resistant Alloy; Emergency—*By Oscar E. Harder and James T. Gow* 408
Heat Treatment and Carbon Content on the Work Hardening Characteristics of Several Steels; Effect of—*By John H. Hollomon*..... 123
High Carbon Steel; Structural Changes During the Tempering of—*By Dara P. Antia, Stewart G. Fletcher and Morris Cohen*..... 290
High Speed Testing of Mild Steel—*By J. H. Hollomon and C. Zener*.... 111

I

Influence of Nickel, Molybdenum, Cobalt and Silicon on the Kinetics and Ar″ Temperatures of the Austenite to Martensite Transformation in Steels—*By H. H. Chiswik and A. B. Greninger*..... 483
Isothermal Transformation of Case-Carburized S.A.E. 4815—*By J. R. Cruciger and J. R. Vilella*..... 195

K

Kinetics and Ar″ Temperatures of the Austenite to Martensite Transformation in Steels; Influence of Nickel, Molybdenum, Cobalt and Silicon on the—*By H. H. Chiswik and A. B. Greninger*..... 483

M

Mild Steel; High Speed Testing of—*By J. H. Hollomon and C. Zener*... 111
Molten Stainless Steels; Emissivity of—*By George N. Goller*..... 239
Molybdenum, Nickel, Cobalt and Silicon Influence on the Kinetics and Ar" Temperatures of the Austenite to Martensite Traansformation in Steels—*By H. H. Chiswik and A. B. Greninger*..... 483

N

Nickel and Nickel-Molybdenum Steels; Tempering of—*By Dara P. Antia and Morris Cohen* 363
Nickel-Molybdenum and Nickel Steels; Tempering of—*By Dara P. Antia and Morris Cohen* 363
Nickel, Molybdenum, Cobalt and Silicon Influence on the Kinetics of Ar" Temperatures of the Austenite to Martensite Transformation in Steels —*By H. H. Chiswik and A. B. Greninger*..... 483
Nitriding Process; Study of—I. Effect of Ammonia Dissociation on Case Depth and Structure—*By Carl F. Floe*..... 134

O

Order Hardening: Its Mechanism and Recognition—*By David Harker*... 210
Oxidation Resistance, Creep Strength and Stability of Microstructure of Cr-Mo and 18 Cr-8 Ni Steels—*By R. F. Miller, W. G. Benz and M. J. Day* 381

P

Pearlite in Quenched Steel; Pseudormorphs of—*By Owen W. Ellis*..... 270
Prequenched White Cast Iron; Quenching Rate Versus Graphite Formation in—*By Orien W. Simmons*..... 255
President's Annual Address 12
Pseudormorphs of Pearlite in Quenched Steel—*By Owen W. Ellis*..... 270

Q

Quenched Steel; Pseudormorphs of Pearlite in—*By Owen W. Ellis*..... 270
Quenching Rate Versus Graphite Formation in Prequenched White Cast Iron—*By Orien W. Simmons*..... 255

R

Recrystallization and Strain Hardening; Structural Premises of—*By C. H. Mathewson* 38

S

S.A.E. 4815; Isothermal Transformation of Case-Carburized—*By J. R. Cruciger and J. R. Vilella*..... 195
Secretary's Annual Report 20
Silicon, Nickel, Molybdenum and Cobalt Influence on the Kinetics and Ar" Temperatures of the Austenite to Martensite Transformation in Steels—*By H. H. Chiswik and A. B. Greninger*..... 483

Stability of Microstructure, Creep Strength and Oxidation Resistance of Cr-Mo and 18 Cr-8 Ni Steels—*By R. F. Miller, W. G. Benz and M. J. Day* 381
Steel; Effect of Carbon on the Tempering of—*By Stewart G. Fletcher and Morris Cohen* 333
Strain Hardening and Recrystallization; Structural Premises of—*By C. H. Mathewson* 38
Stress Distribution at the Neck of a Tension Specimen—*By P. W. Bridgman* 553
Structural Changes During the Tempering of High Carbon Steel—*By Dara P. Antia, Stewart G. Fletcher and Morris Cohen*..... 290
Structural Premises of Strain Hardening and Recrystallization—*By C. H. Mathewson* 38
Study of the Nitriding Process—I. Effect of Ammonia Dissociation on Case Depth and Structure—*By Carl F. Floe*..... 134

T

Technical Program and Reports of Officers, A.S.M.—25th Annual Convention, Chicago, October 18 to 22, 1943..... 1
Tempering of High Carbon Steel; Structural Changes During the—*By Dara P. Antia, Stewart G. Fletcher and Morris Cohen*..... 290
Tempering of Nickel and Nickel-Molybdenum Steels—*By Dara P. Antia and Morris Cohen* 363
Tempering of Steel; Effect of Carbon on the—*By Stewart G. Fletcher and Morris Cohen*..... 333
Tensile Properties of Alloyed Ferrites—*By C. E. Lacy and M. Gensamer* 88
Tension Specimen; Stress Distribution at the Neck of a—*By P. W. Bridgman* 553
Testing of Mild Steel; High Speed—*By J. H. Hollomon and C. Zener*... 111
Transformation of Case-Carburized S.A.E. 4815; Isothermal—*By J. R. Cruciger and J. R. Vilella*..... 195
Treasurer's Annual Report 18

W

White Cast Iron; Quenching Rate Versus Graphite Formation in Prequenched—*By Orien W. Simmons*..... 255
Work Hardening Characteristics of Several Steels; Effect of Heat Treatment and Carbon Content on the—*By John H. Hollomon*..... 123
